Ethan,

Hope this letter finds you ok. Today is December first, its getting closer to your CHRISTMAS break, we CAN'T wait, I'm sure you CAN'T either.

ITS Raining here now & will all day today and the next 7 DAYS on & off.

At least ITS not cold, the temperature is perfect.

We can't wait till your break so we CAN take you sight seeing, there's alot to see in the south east.

I wish they would let you have your phone so we CAN communicate but also you could take pictures of everything & send by phone. IT would HAVE Really been great if I had a cell phone while I was in Vietnam. I could of sent a million pictures to Mom about Vietnam. and the people there.

If you can have a phone while in AIT that would really be nice, we could keep up with you on your daily Routine.

well I'll close for now, I want to get this mailed so it will go out today - We Love you & Miss you!!!
